Protesting Against Rate Reduction. Atlanta, Ga.-The recent proposition of J. Pope Brown, Chairman of the Georgia Railroad commission, to reduce the passenger rate in Georgia from three to two cents per mile was protested against by the Brotherhood of Locomotive Engineers, the Order of Railway Conductors and unions of the blacksmiths, machinists and telegraphers, boilermakers, railway train-Lien, carpenters and joiners, clerks and car men. These organizations employed an attorney especially to represent them, who urged that such a reduction would work against the prosperity of the state and lead to a reduction in the number of railroad employes, as well as of their wages. The Travelers' Protective Association also protested that a reduction, as proposed, would result in fewer trains and poorer service.
